Areas of Opportunity

**Entice
(Awareness)**
Struggles with concentration or stress. Encounters Tableau wellness dashboard or campus flyers linking nutrition to performance.

People: Peer mentors, health educators. Places: Student union, dorm lobbies. Things: Tableau dashboard link, flyer.

Help me understand why I feel so sluggish during my afternoon lectures. Help me avoid failing due to lack of focus.

Discovering clear visual proof linking breakfast to higher concentration.

Feeling overwhelmed by raw, confusing nutrition data initially.

Embed interactive dashboard link into the student registration portal.

**Enter
(First Choices)**
Commits to eating breakfast and reducing fast food. Visits updated campus cafeteria to check options.

People: Cafeteria staff, cashiers. Places: Cafeteria entrance. Things: Digital menus with calorie metrics.

Help me find a quick, affordable, and healthy breakfast on my way to morning classes. Help me avoid convenient junk food.

Finding balanced meal combos and fresh salad options readily available.

Long lines at the healthy food stations during peak morning rush hours.

Introduce mobile pre-order for healthy breakfast bowls to bypass lines.

**Engage
(Core Experience)**
Sits down to eat or navigates high-stress exam periods. Deliberately chooses healthier alternatives over junk food.

People: Dining friends, study groups. Places: Cafeteria seating, library. Things: Eye-level fruit bowls, clean packaging.

Help me satisfy hunger and stress-eating urges without crashing. Help me avoid mindless emotional eating.

Feeling sustained physical energy and clarity during a difficult exam.

Feeling tempted by peers ordering late-night fast food or snacks.

Partner with housing to stock dorm vending machines with healthy snacks.

**Exit
(Post-Meal)**
Finishes meal and notices immediate physical difference—feels satisfied and alert rather than bloated or tired.

People: Feedback collectors. Places: Dish return station. Things: Quick-tap feedback tablets.

Help me validate that making the healthier choice was worth the effort. Help me avoid the post-lunch food coma.

Experiencing a noticeable boost in alertness during afternoon lectures.

Feeling like healthy meal portions are sometimes too small for the price.

Implement a 'Frequent Healthy Diner' loyalty reward program.

**Extend
(Long-Term Habits)**
Over several weeks, tracks improvement in focus, energy, and GPA. Shares success stories with peers.

People: Roommates, family. Places: Gym, campus rec spaces. Things: Habit tracking apps, wellness blogs.

Help me maintain this lifestyle during holidays/breaks. Help me avoid slipping back into old habits.

Receiving positive academic feedback and feeling resilient under pressure.

Difficulty finding affordable healthy ingredients off-campus.

Develop a university cooking newsletter with cheap, 5-minute recipes.
